

AVIOBOOK

JAVA DEVELOPER

Looking for a new challenge in a great team and an exciting industry? We are looking for a team player who can help us develop our Aviobook product suite even further.

As a Java Developer, you will be **developing and deploying our Aviobook Cloud Solution**, running on Docker containers and serving as a data hub for our airline customers using our mobile apps.

You will work closely with a Product Owner to **translate new ideas into code** to continuously improve our product line.

YOU ARE

- Passionate about creating and delivering software
- A Master or Bachelor in Informatics or equivalent through experience
- Experienced in Java development
- Having experience in designing REST APIs and Frameworks like Play (Java) is considered a plus

WE OFFER

A great place to work, a challenging environment and ample responsibility to work in independently on your own part of the Aviobook product line. In addition, a competitive salary package is coming your way, including meal checks, group insurance, hospitalisation insurance, a laptop and a company car

... and you'll be part of changing the way aviation works!

ARE YOU INTERESTED?

Give us a call on **+32 (0) 89 32 34 80**
or mail your resumé to jobs@aviovision.com
